110 mm YENİ SERİ KAPLIN KULLANIM ŞEKLİ

KULLANIM;

Ürünümüzün kullanımı çok kolaydır; Standart kaplinler de olduğu gibi somunları ve boru tutucu ringi çıkartmamıza gerek yoktur. Gruplanmış halde aldığınız ürünün somunlarını 3-4 tur gevşettikten sonra direkt boruya takıyoruz ve somunları sıkıyoruz.

Hepsi bu.

AVANTAJLARI;

- 1) Boruya pah (tırıslama) açmamıza gerek yok.
- 2) Standart kaplinler de olduğu gibi somun ve boru tutucu ringi çıkartmamıza gerek yok.
- 3) Patentli çalışma prensibi sayesinde daha geniş tolerans aralığında üretilmiş borularda rahatlıkla kullanabiliyoruz.
